PORTFOLIO RESUME

Mohammad Reza Naderi

Web Developer and Designer

Interactive websites built around clarity, identity, motion and performance.

Professional Profile

I design and build interactive, responsive digital experiences across brand identity, UI and UX, front-end development, motion, SEO architecture and performance. My work focuses on cinematic portfolios, brand websites, ecommerce experiences and content-led platforms that remain clear and fast on real devices.

Core Focus

Interactive Experience	UI and UX Design	Front End Development	SEO and Performance

Skills and Working Method

Design, technology and user experience in one coherent, measurable workflow.

UI UX Design Clear flows and elegant hierarchy that earn trust.	**Front End Development** Fast, responsive builds with polished motion.	**Motion Design** Subtle movement that guides and gives the brand a pulse.	**Brand Identity** Visual systems that feel distinct and ready to grow.
SEO Architecture Semantic structure and speed choices for discovery.	**Performance Optimization** Lean assets and smooth rendering under pressure.	**Responsive Systems** Layouts made for real devices, not only breakpoints.	**Interactive Experiences** Cinematic details that make exploration memorable.

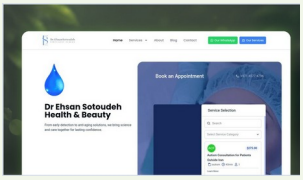

Project Workflow

01 **Discover** Clarify the audience, goals and content before visual decisions.	02 **Structure** Turn the brief into a clear hierarchy and user journey.	03 **Design** Build the visual system, interaction language and responsive behavior.	04 **Build and Optimize** Develop, test and refine speed, motion and real-device behavior.
